1. WHAT INFORMATION DO WE COLLECT?

Information automatically collected

In Short: Some information — such as your Internet Protocol (IP) address and/or browser and device characteristics — is collected automatically when you visit our Services.

We automatically collect certain information when you visit, use or navigate the Services. This information does not reveal your specific identity (like your name or contact information) but may include device and usage information, such as your IP address, browser and device characteristics, operating system, language preferences, referring URLs, device name, country, location, information about how and when you use our Services and other technical information. This information is primarily needed to maintain the security and operation of our Services, and for our internal analytics and reporting purposes.

The information we collect includes:

- **Log and Usage Data.** Log and usage data is service-related, diagnostic, usage and performance information our servers automatically collect when you access or use our Services and which we record in log files. Depending on how you interact with us, this log data may include your IP address, device information, browser type and settings and information about your activity in the Services (such as the date/time stamps associated with your usage, pages and files viewed, searches and other actions you take such as which features you use), device event information (such as system activity, error reports (sometimes called 'crash dumps') and hardware settings).
- **Device Data.** We collect device data such as information about your computer, phone, tablet or other device you use to access the Services. Depending on the device used, this device data may include information such as your IP address (or proxy server), device and application identification numbers, location, browser type, hardware model Internet service provider and/or mobile carrier, operating system and system configuration information.
- **Location Data.** We collect location data such as information about your device's location, which can be either precise or imprecise. How much information we collect depends on the type and settings of the device you use to access the Services. For example, we may use GPS and other technologies to collect geolocation data that tells us your current location (based on your IP address). You can opt out of allowing us to collect this information either by refusing access to the information or by disabling your Location setting on your device. Note however, if you choose to opt out, you may not be able to use certain aspects of the Services.

Information collected through our App

In Short: We collect information regarding your geo-location, and Facebook permissions when you use our App.

If you use our App, we also collect the following information:

- **Geo-Location Information.** We may request access or permission to and track location-based information from your mobile device, either continuously or while

you are using our App, to provide certain location-based services. If you wish to change our access or permissions, you may do so in your device's settings.

- Facebook Permissions. We by default access your Facebook basic account information, including your name, email, gender, birthday, current city, and profile picture URL, as well as other information that you choose to make public. We may also request access to other permissions related to your account, such as friends, checkins, and likes, and you may choose to grant or deny us access to each individual permission. For more information regarding Facebook permissions, refer to the Facebook Permissions Reference page.

This information is primarily needed to maintain the security and operation of our App, for troubleshooting and for our internal analytics and reporting purposes.
